

HARVEST OF THE MONTH

GRAPES

These factoids are GRAPE

Great Swimmers!

Most grapes float in water because they are made up of about 80% water and have tiny air pockets inside.

Ancient Grapes!

Some grapevines keep producing grapes for decades, and a few are more than a century old.

Shape Shifters!

Grapes turn into Raisins when they're dried in the sun or with warm air!

GOLD STAR FOODS

A LOST GRAPE?!

Help Violet, a delicious grape, find her friends. Find your way through the maze and help her join her bunch again. When you're done, color them all in!
